

## Biography

Arun Rai is Regents' Professor at the Robinson College of Business at Georgia State University, holds the Howard S. Starks Distinguished Chair, and is the director of the Center for Digital Innovation. His research has focused on the development and deployment of information systems to drive innovation and create value. His work has contributed to understanding the digital transformation of organizations and supply chains, governance of IT investments and platform ecosystems, and deployment of digital innovations at scale to empower individuals and address societal problems including poverty, health disparities, infant mortality, and digital inequality. His research has involved close engagement with organizations across sectors (e.g., Apollo Hospitals, China Mobile, Emory Healthcare, Gartner, Georgia-Pacific, Grady Hospital, IBM, Intel, SAP, SunTrust, UPS), and has been sponsored by government agencies, corporations and thought leadership forums. He has chaired over 30 dissertations and served on the committees of over another thirty, with many of his students serving in leadership positions in the profession and at their universities. He served as editor-in-chief for the *MIS Quarterly* from 2016 to 2020. He has also served as Senior Editor for *MIS Quarterly* and *Information Systems* and Associate Editor for *Management Science*, *Journal of MIS*, and *Journal of the Association for Information Systems*. He is a Fellow of the Association for Information Systems and a Distinguished Fellow of the INFORMS Information Systems Society and received the Association for Information Systems LEO Award for Lifetime Exceptional Achievement in the Information Systems discipline.
